## INTRODUCTION TO THE EDITION

This edition of Mass music by Arnold de Lantins is intended as a complement to the forthcoming issue of Arnold's complete works in Early Fifteenth-Century Music, edited by Gilbert Reaney. The purposes of the present edition are twofold: to provide transcriptions of Arnold's surviving Ordinary settings as a basis for the present discussion, and to facilitate study of their transmission in the sources containing them. The second objective has resulted in several unusual features in the transcriptions presented here. First, instead of relegating variant readings to a critical apparatus, the edition renders them visible at a glance by giving parallel transcriptions for settings that appear in more than one source--the Gloria/Credo pair BL 90/91 and the movements of the Missa Verbum incarnatum. Presentation in parallel transcription does create some problems that call for adjustment. For instance, certain phrases contain fewer perfections in one source than in others. In such cases the transcriptions contain blank spaces for the source that falls short; the comparative readings come into alignment once more at the beginning of the next phrase. Measure numbers thus represent the cumulative numbering of all versions rather than that of any individual source.

Other conventions adopted to communicate information relevant to the transmission of Arnold's Ordinary settings

include check marks above the staves to indicate line ends and double check marks to show page breaks in the original. (Double check marks also indicate the point at which the tenor goes from the verso to the recto of an opening.) Double bars in the transcription represent bar lines in the original. As seen in Chapter 4, such seemingly insignificant details can convey valuable information about a source's exemplar.

Since errors play an important role in the study of transmission, they have not been emended in this edition, which preserves the readings of the sources as accurately as possible. Ambiguities and errors that would typically be normalized by the editor thus remain unresolved. Of course, some compromises have been necessary in order to present the music in score. Where two voice parts conclude with a long but the third ends with a breve, for example, the missing value is represented by a rest enclosed in brackets. Brackets also enclose modern time signatures corresponding to redundant signatures given by the scribes.

In the process of editing the music of another era for a modern edition one notices in passing many details that reveal the habits and predilections of the scribes. Such details, which are easily forgotten or lost among mountains of file cards and notes, can provide the basis for creating profiles of the individual scribes. Since the focus of this edition is the transmission of Arnold's Mass music, I have departed from normal editorial procedures by:

- Retaining the spelling and punctuation used by scribes (while extending abbreviations)
- Placing dots above the staves to represent dots of division in the originals

- Indicating above the staff specific note shapes used, such as elements of Italian notation or flagged vs colored semiminims when usage differs among the sources
- Preserving the graphic appearance of manuscript accidentals employed by the scribes, thus # instead of ♯
- Presenting the text underlay of the originals as literally as possible while taking into account what appears to have been the scribe's intent

This edition clearly gives more priority to the ends of scholarship than to those of performance. Nevertheless, the reader is encouraged to gather together a few singers to bring this music to life once more, and perhaps to resolve a few of the ambiguities in this edition as fifteenth-century singers resolved such problems in their musical texts--by working them out on the spot.

This musical score page shows three staves. The top staff is for a soprano or alto voice, the middle staff is for basso continuo (labeled 'BL'), and the bottom staff is for another vocal part. The music is in common time, with a key signature of one sharp. Measure 45 begins with a forte dynamic. The soprano and basso continuo sing the phrase 'Qui tollis peccata' in unison. The basso continuo provides harmonic support with sustained notes and bassoon entries. The vocal parts have melodic lines with various note heads and rests.

BU

Qui tol- lis

pe- tris Qui tol- lis pec- ca- ta

This continuation of the musical score shows the progression of the piece. The basso continuo (labeled 'BU') has taken over the harmonic duties, providing a steady bass line. The vocal parts continue their melodic lines, with the soprano and alto voices singing the 'Qui tollis' section. The basso continuo's bassoon and cello parts are clearly defined, contributing to the rich texture of the music.
