Notation

Three notes descending: 'English conjunctura' (leALE, MAESTriE, peRIR, SE prent, REpentir), 'extended clivis' (amiE, aMUR guerpir) and regular climacus (KAset and repenTIR). Four notes descending also take the regular climacus form and extend it (e.g. SEUST, maRle).

Pes with wave-note for lower note: LA seust, guerPIR [see above example], CORS.

A two-note descending ligature (like a clivis without the descender) with a wave-note for the upper note: serROIT, aMER e, enIERT (this form has a distinct square note head for the lower note, and is unlike the forms that appear in previous songs).
The very casually-written form of virga+cephalicus appears at CHANter. (This is very similar to VEIR in the previous song.)

The wave note with descending liquescent (distinct because its head is more wavy and its descender is thick and straight) also appears at GUldera, PErir.

Epiphonus at CAR, DE guoer.

A few forms are hard to make out because of erasures etc. (see notes to song).
